

Put the life back into your old light

The Retro
Simple replacement of your existing light

The RETRO

Simple replacement of your existing light!

**Available in ceramic light engine or halogen.
Suitable to replace most major brands of pool lights**

Ceramic Light Engine

- Most efficient and brightest pool light on the market
- A superior design of ceramic and LED technology, allows for efficient heat dissipation resulting in maximum light output.
- No globe changing required
- LED life 50,000 hours approx.
- No cable joining required
- No electrician needed
- No need to empty pool
- LED available in blue, green and white
- Will conform to your existing 12V or 24V transformer

Halogen

- Suitable for 12, 24 and 32V
- Slim line. Diameter 238mm, protrudes only 59mm from pool wall.
- Engineered custom designed lens and reflector to maximise spread of beam
- No cable joining required
- No electrician needed
- No need to empty pool
- Interchangeable lenses available in blue, green, red, magenta and clear

Applicable to both lights

- Choice of rim colours to match your pool or spa interior
- Suitable for concrete pools and spas
- Replaces all major brands of pool lights
- Unique connection so that the power cable doesn't enter into the light cavity, eliminating water entry
